IT Week in Review

New BVSD Website Approaches 1 Year Anniversary

On March 30, 2009, the new Boulder Valley School District website will mark a full year in operation.

During this 12 month time period, we have had more than **5 million hits** to our website!

In addition, at least six other school districts have approached our web team for advice and information about using SharePoint in their own websites.

Thanks to the web team for their continued hard work!

Scheduled Maintenance Outage

The Division of Information Technology has scheduled a brief maintenance outage to test our new generator and reboot vital equipment. During this time, users will not be able to access the BVSD homepage, Infinite Campus or email.

When: Saturday, March 21, 2009 from 8:00am to 9:00am

Information Technology Governance Committee

A selection committee met on March 19, 2009 and elected the members of our new Information Technology Governance Committee. All applicants will be contacted by no later than March 27 and informed if they have been selected or not.

Thank you again to all of the parents, students, employees and community members who applied and were willing to donate time to this valuable committee.

Acceptable Use Agreement Update

Users who have not signed the annual Acceptable Use Agreement (AUA) will soon be seeing a screen upon login which will prompt them to sign their agreement.

If you have questions or problems with this prompt, please contact the IT Support Center at x5065.

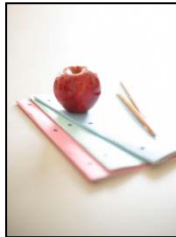

WAN Update: Whittier International Elementary

We are excited to announce that we have installed our new fiber optic network at Whittier International Elementary! Overall the installation went smoothly, providing Whittier with faster access to the web and a new phone system the very next day.

On the old phone system, Whittier reported having issues with call noise, static and low volume. They now report their calls are very clear.

The IT Operations team continues to work hard installing the new systems, and is planning for the installation at Boulder High School to be completed during spring break.

Training Sessions

The following are recent training sessions conducted by the IT Department. For a catalog of available classes, visit our professional development website, [Avatar](#).

- Lawson Training
- Infinite Campus IEP Training
- Office 2007 Training
