

X-Ray & Lab Benefit

Effective July 1, 2010, the benefit for independent labs will be determined by the network status of the lab providing the service. Network status of the referring physician will not be considered in determining lab service benefits.

What does this mean to you?

When visiting your doctor, ask if your lab work will be sent out to be processed at an independent facility. If so, make sure they are in network to assure that benefits will be paid at the network level.

Similarly, if your doctor refers you to an x-ray or lab facility for biometrics or x-ray services (i.e. a mammography clinic), make sure they are in network.

Since July 1, 2009, the following claims were paid for BVSD members for x-ray and lab charges:

In Network	\$110,000
Non Network	\$ 20,000

Network Labs

Quest Diagnostics
Metropolitan Labs
Centura Labs (Avista)
Community Reference Labs (through BCH)
Boulder Medical Center (through BCH)
Colorado Pathology Consultants
Frontline Labs
Genomic Health

Non Network Labs

Pharmasan Labs
Myriad Labs
Litholink Corp
Liposcience Inc.
Millenium Labs
Histopath Lab
Genova Diagnostics
Genomic Health
Gene Care Medical Genetics Center
Fertility Labs of Colorado
Center for Disease Detection
AIT Labs
Ameritox
Ameripath Labs
Alpha Sleep Diagnostic Center
Aureopn Labs
Bako Pathology Services
Berkely Heart Lab
Bio Reference Labs
Bostwick Labs
Calloway Labs
