**I. Opening/Public Comment**

Dee Perry called the meeting to order at 5:05 p.m.

Twenty members of the Crest View Elementary kindergarten community were present and shared comments with the committee regarding the new kindergarten playground area. The parents are upset about the quantity and size of the new play equipment (several pieces of old play equipment which did not meet current safety standards were replaced with one small, new piece), the surfacing (dirt, weeds and pea gravel were replaced with asphalt and engineered wood fiber), and lack of slides and swings. Parents claim the playground does not provide enough activity and stimulation and the asphalt is hot and causes skinned knees. The DAT has been asked to reconvene on Sept. 8 to identify the shortcomings of the current design and develop a plan for moving forward.

**II. Review/Approval of the June 3 meeting minutes**

Meeting minutes were voted on and approved.

**III. Committee Governance**
