

**Casey Middle School
Boulder Valley School District
Project #07-06**

**Design Advisory Team Meeting #9
November 26, 2007**

Addendum to 11/26/07 Meeting Minutes

2. Presentation of Old vs. New

- See attached reports
 - o JVA Structural Report
 - o Andrews & Anderson Historic Preservation Report
 - o YRG LEED Report

3. Questions / Answers / Discussion of Three Options

- The 1950's addition may also be considered as a candidate for historic preservation.
- Mr. Anderson, James, and many of the team agreed that there may not be much to be preserved inside that is of historic nature although there may be merit to keeping some of the inside from a saving resources point of view (understanding that LEED does not count this).
- There was much discussion of structural findings. Expanding soils, slab foundation, need to redo foundation of 1924 building if building is kept with helical piers and floating floor.

These meeting minutes are believed to be an accurate account of the above referenced project meeting. If there are any questions and/or comments, please do not hesitate to contact RB+B Architects.
