Dear Monarch High Families –

Construction of our Bond Project is moving right along, and I want to let you know what to expect when the new school year starts later this month.

Phase 1 of the project which includes renovations to the front entry and main office will be complete. The attendance office will be moved into its new location. (Although we may not have all the boxes unpacked yet!) Other parts of Phase 1 which will be completed include updates in the science classrooms and a new ramp in the cafeteria.

Construction of the A-wing addition and the cafeteria expansion (Phase 2) will continue through the first semester. New security doors around the school and new IT closets also will be installed in Phase 2. This portion of the project is on schedule to be completed and ready for students for the second semester. We still will have use of the cafeteria while construction is occurring. These construction activities should not affect the day to day operation of the school.

**Safety and security for students and staff during construction is our top priority.** Our message to students is, “Respect the boundaries and stay safe.” Faculty and staff will work to convey this to students. The construction areas are separated from the rest of the school by fences and/or construction walls that are clearly marked with warning signs. Workers have separate foot traffic entrances/exits for the construction area. All construction workers who have completed a BVSD safety orientation and are authorized to be on site will have numbered project stickers on their hard hats.

I meet regularly with the construction company and the project manger. I will update you as necessary about how construction activities may affect you and your student in the upcoming weeks. More detailed information about the project can be found on our website at: <http://bvsd.org/bondproject/schools/Pages/monarchhigh.aspx>.

Thank you for your continued support of Monarch High School. I am excited about what the future holds for our school, and hope you will be too. Questions or concerns should be directed to the project manager, Joe Gierlach at 720-561-5759 or [joe.gierlach@bvsd.org](mailto:joe.gierlach@bvsd.org).

Sincerely,

Jerry Anderson  
Principal  
Monarch High School
