July 29, 2009

Dear Flatirons Families,

This summer has been busy at the building. Construction crews have been working nearly every day and the building has really been transformed. **We fully anticipate construction will be complete, and the school will be ready for students on August 20.** However, there will be a lot of activity at the building in the next few weeks, and the start of the school year will be a bit different this year. Please note the following:

- Assessments will not be conducted prior to the start of school. Rather, they will be performed during the first two weeks of school during the school day.
- The main office will be located in classroom third grade-Linfield' until August 10. The main office will not be able to answer phone calls or have guests on August 10 and 11 because we will be moving into our new office space. If you need help on these days, please email Scott or Kim at scott.boesel@bvsd.org or kim.kelly@bvsd.org.
- Teachers will not be available when they first return because they will be moving in and setting up classrooms. Please contact teachers after August 17.
- Teachers will not have phones or computers until after August 17, so they will not be able to return phone calls or emails until then.
- Updates will be posted on the website at <http://www.bvsd.org/schools/flatirons/home/Pages/default.aspx>.

The week of August 10 will be very busy at the school—we will be moving in, receiving furniture and having phones and IT set up. There will be many people onsite and, likely, traffic congestion.

Thank you for your patience and understanding with the construction disruption. We are excited about the results and hope you will be too.

Sincerely,

Scott Boesel
Principal
Flatirons Elementary School
