

**BVSD Foothill Elementary School Access Improvement
Problem-Solving Workshop**

**May 19, 2009
6:30-9:00**

Meeting Objectives

- To understand the challenge – the range of interests and the traffic and safety data that any solution needs to address
 - To collect input on how best to address the challenge – feedback on the alternative(s) that most effectively meet(s) the broadest range of interests and if necessary to modify the alternative(s) to better meet the range of interests
-

6:30 Welcome and Agenda Review

6:35 Presentation – Where We Are

- a. Context – history and decision-making process
- b. Feedback – what we heard

6:45 Presentation – Plan for Tonight

- a. What we will do tonight – problem solving steps
- b. Interests/criteria for any solution

6:50 Criteria/Interests - Small Group

Small groups will discuss whether this is the complete list of interests and criteria. Is there something missing?

7:00 Presentation – The Data

- a. Non-engineering elements true to any alternative
- b. Data analysis to date
- c. Alternatives description

7:15 Alternative Discussion - Small Group

- a. Which alternative(s) meet(s) the greatest number of criteria? Why?
- b. How could it be improved to meet more of the criteria (without creating greater challenges or not meeting other criteria)?
- c. Are there any alternatives missing?

8:15 Alternative Discussion - Large Group

- a. Which alternative(s) were mentioned as meeting the most criteria? Were there any modifications?
- b. Were there any additional elements?

8:50 Next Steps – What happens now?

9:00 Adjourn
