

Hello, Parents!

We are so excited about learning with this group of Third Graders! Thank you for sharing them with us!

Each month we will try to send home a short newsletter informing you about the units we are studying, special events, and ways that you as parents can be involved. Look for a decorated calendar that your child will bring home, with special dates noted. This is a good thing to display on your refrigerator or other prominent place to keep track of events.

We are off to a great start, learning about mathematical thinking (number sense), writing about ourselves, and reading great books! We are excited that students are receiving their literacy instruction in small groups, as in the past. We have also begun our social studies unit on maps and globes, which will lead into our study of landforms and habitats. We especially focus on mountains, forests, plains, and desert areas of our own state, since our overall theme is Colorado.

We invite you to our September 3 “conferences” which will give you more information about procedures, homework, schedules, etc. This will be presented in English and in Spanish from 4:45-5:25 and from 5:30 to 6:15, so that you can attend another grade as well, if you have students in two different grades. If you speak Spanish, please come to Ms. Karla’s room, and the English one will be in Ms. Ramp’s room.

We look forward to meeting and sharing with you! Activities will be provided by other teachers during this time for your children.

Sincerely,

The Third Grade Team: Ms. Carole, Ms. Delfin, Ms. Karla, Ms. Latimer, Ms. Pappageorge, Mrs. Ramp, Ms. Tamara, and Mrs. Walmsley
