Feb. 25, 2008 – Parent Survey

Our Office of Planning and Assessment is sending out a *Snapshot Survey* to all parents in early March. Some elementary schools will distribute these surveys at parent-teacher conferences or in Friday folders. The rest of the surveys will be sent via U.S. mail.

Responses to the survey questions help us determine how well schools and the district are performing. Because the same survey has been given for several years, our school staff and School Improvement Team members are able to study trends and patterns in responses to help determine what programs and processes are working and which ones need improvement.

Parents: we need your feedback. It is important to have a high participation rate so that our survey data accurately reflects parents' perceptions and opinions. We hope that you will take a few minutes to complete and return the survey. If you have any questions, please call 303-447-5147.
