December 10, 2013

Members of the Boulder Valley School District Community Members of the Board of Education Dr. Bruce K. Messinger, Superintendent of Schools Boulder Valley School District RE-2 Boulder, Colorado

It is our pleasure to submit the Comprehensive Annual Financial Report of the Boulder Valley School District RE-2 for the fiscal year ended June 30, 2013.

State law requires that all local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. This report is being formally submitted to the board of education in fulfillment of those requirements.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that it has established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements.

The 2013 Comprehensive Annual Financial Report (CAFR) presentation is in compliance with the governmental financial reporting model established by the Governmental Accounting Standards Board (GASB) Statement No. 34 titled *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. Accounting and financial reporting for state and local governments previously focused on funds to demonstrate fiscal accountability. The GASB No. 34 reporting model parallels private sector reporting by consolidating fund-based presentations into government-wide financial statements designed to ensure and demonstrate fiscal and operational accountability.

Swanhorst & Company LLC, Certified Public Accountants, have issued an unqualified ("clean") opinion on the Boulder Valley School District RE-2's financial statements for the year ended June 30, 2013. The independent auditors' report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

### Profile of the Government

Boulder Valley School District RE-2 ("the district") is a public school district, organized and existing under the School District Organization Act of 1965, Article 30, Title 22, and Colorado Revised Statutes. It was originally organized in 1860 and was reorganized in 1961 to include

numerous smaller districts. A seven member board of education elected by the citizens of Boulder, Broomfield and Gilpin Counties governs the district. Board members serve four-year terms, with four members elected every two years. Board members are term-limited at two terms.

The district is located near the foothills of the Rocky Mountains approximately twenty miles northwest of Denver. The district is made up of approximately 500 square miles in the southern half of Boulder County, the northern part of Gilpin County and a significant portion of western Broomfield County. It covers one of the larger school regions in the metro-Denver area and encompasses the communities of Boulder, Broomfield, Erie, Gold Hill, Jamestown, Lafayette, Louisville, Nederland, Superior, and Ward. For the 2012-13 school year, the district's total enrollment and student funded full time equivalent was 29,718 and 28,538 respectively, including charter schools. The district owns over 750 acres of prime Boulder and Broomfield County property and maintains six artificial turf athletics fields and 56 buildings spanning over four million square feet.

The district provides a full and challenging range of educational programs and services authorized by Colorado State Statute including basic kindergarten through grade twelve education in elementary, middle and high schools, special education for special needs students, vocational education, English as a second language education and numerous other educational and support programs. In addition, the district offers preschool programs through its Early Childhood Education program.

Five charter schools are included as component units of the Boulder Valley School District RE-2 for the 2013 CAFR: Boulder Preparatory High School, Horizons K-8 Alternative School, Peak to Peak K-12 Charter School, Summit Middle Charter School and Justice High Charter School.

## Economic Conditions and Outlook

The state economic picture is important to the district because a major source of funding for the district's General Operating Fund is received through the State's School Finance Act established by the state legislature. Also, a strong local economy combined with a stable or growing population are factors critical to the health of a school district.

The City of Boulder is home to the University of Colorado, Boulder Campus, which is a significant stabilizing force for the local economy. The City of Boulder is also home to a campus of the National Institute of Standards and Technology, the National Center for Atmospheric Research, and the University Corporation for Atmospheric Research and other federal research laboratories.

Other major employers in the area include Ball Corporation, IBM Corporation, Oracle, Level 3 Communications and numerous other smaller software, research, manufacturing and pharmaceutical firms.

The 2013 Colorado Business Economic Outlook, published by the University of Colorado Leeds School of Business states that;

"With a talented workforce, high-tech (but diversified) economy, relatively low costs of doing business, global economic access, and superior quality of life, Colorado is poised for long-term economic growth."

"Colorado will place in the top 10 states for employment growth in 2013. High commodity prices and an easing drought will lead to near-record farm income. State and local governments will continue to rebound from budget strife, slowly restoring some of the critical cuts made during the past four years. Home prices will continue to improve in Colorado, as will the foreclosure situation. Colorado will continue to be a popular place to live, with projected population growth of 1.5% and the state's 23rd-consecutive year of net in-migration. Colorado will sustain an unemployment rate under 8%."

"The Boulder County economy continues to improve and outperform the state and national economy in many areas. While continued growth is expected in 2013, any significant reduction in federal research funding would have a significant negative impact, affecting federally funded research labs and the university, as well as numerous businesses that depend on federal research contracts, Small Business Innovation Research (SBIR) grants, and other funding programs to develop and refine new technologies."

"Boulder County's diverse economy is supported by a high concentration of businesses in a number of emerging industries, visionary entrepreneurs, a well-educated and highly skilled workforce, a world-class research university, and several major federal labs."

"The area continues to receive national recognition for its business climate and lifestyle. In 2012, Richard Florida named Boulder America's Most Creative City, USA Today ranked Boulder #9 among Top Cities for Technology Start-Ups, and the city was recognized in several national rankings on health and happiness. In 2011, Louisville was ranked #1 on Money magazine's Best Places to Live list."

The entire 2013 Colorado Business Economic Outlook can be found at <u>http://leeds.colorado.edu/asset/publication/2013beof.pdf</u>.

The Denver-Boulder-Greeley CPI (Consumer Price Index) is the measure of inflation that is generally used for the state of Colorado. The 2012 rate increase, used as a function of funding increases for the 2013-14 fiscal year, was projected at 1.9 percent in December, just below the U.S. rate of 2.2 percent. In February, the final rate was confirmed to be 1.9 percent. School districts face a significant challenge as an improvement in fiscal resources for K-12 education will typically lag an economic recovery. The national political arena has also impacted K-12 funding as the pressure to cut the national deficit has resulted in the sequestration of federal funding for required programs such as special education and support for low income students.

## Long-term Financial Planning

Each year the state budget is crafted by the governor and legislature to determine how much of the total budget will be allocated to K-12 education. The state economic picture is important to the district because a major source of funding for the district's General Operating Fund is received through the state's School Finance Act (SFA) established by the state legislature. During the Great Recession, state revenue shortfalls forced cuts to K-12 education even though expectations for constitutionally mandated funding increases existed under Amendment 23. After the state sets the total funding for K-12 public education, each local district determines how to fund its specific system and every school within its district.

For the 2013-14 fiscal year, the legislature increased base per pupil funding by 1.9 percent for K-12 public education as well as provided additional dollars for statewide student growth and a minimal reduction to the negative factor. This equates to a \$210.4 million state increase and a

\$6.2 million projected increase to the district from 2012-13 funding levels. The reduction to state-wide total program funding as calculated in the School Finance Act is now \$1.01 billion, or 15.4 percent. For the district, the negative factor is \$34.6 million and is expected to be a permanent revenue reduction for the near future.

The district's projected state per pupil revenue (PPR) for 2013-14 is \$6,546 after accounting for a \$2 per pupil rescission to pay for finance staff at the Colorado Department of Education. Total program funding, defined by the SFA, is projected to be \$189.4 million (this figure does not include the estimated uncollectable property taxes due to the timing of tax collections), an increase of \$7.3 million from the district's 2012-13 Revised Budget.

The funded pupil count is the real driver of school funding. The SFA identifies a per pupil funding amount, and the number of full-time students enrolled in a district determines the amount of total funding the district receives. The funded pupil count refers to the number of full-time students enrolled in a district. Not all students (kindergartners for example) attend school on a full-time basis; the funded pupil count is different from the total enrollment. The official pupil count occurs each October and results in the funded pupil count numbers.

When projecting student enrollment, the budget implications are substantial if expected growth is not realized. If a shortfall in actual enrollment occurs as compared to projections, this information is generally received after the close of the first quarter of the fiscal year and many staffing and programmatic changes cannot be made without significant impacts to students. For this reason, the district generally undertakes a reasonable, yet conservative, projection methodology to reduce the risk of a funding shortfall compared to expected revenues.

## Fund Balance Requirements

In order to meet the challenges of school funding in Colorado, the board of education adopted Policy DB in spring 2005, which dictated a minimum level of year-end fund balance in order to ensure the district's ongoing financial health. To further bolster the district's financial position and address the current economic challenges, the board of education updated this policy in January 2009, strengthening the requirements of the policy. The policy restricts the district from using one-time money for ongoing expenditures. This ensures programs are sustained with ongoing revenue. In addition, current policy specifies the amount to be held as a contingency reserve.

Following the requirements of this policy means the district will have to make annual budget adjustments so that new expenditures do not exceed new revenues and a moderate level of reserves is maintained. Because the district has in the past funded necessary programs with fixed revenue provided by override funds, the cost of these programs will eventually exceed the fixed revenue stream. Using the policy now means the district can make smaller adjustments over time rather than making dramatic cuts when the cost of programs has outgrown revenue sources.

The original policy was recommended by the district's external auditors and commended by the Colorado Department of Education's Accreditation Consultant. An update to the policy was crafted by the district's audit committee with input from the district's external financial advisors.

The two key elements of the policy are spending limitations and reserve requirements as follows:

Spending Limitations:

- The General Operating Fund budget will be developed so that the total of annual ongoing expenditures and transfers does not exceed annual revenues.
- If the General Operating Fund ends any fiscal year with an ending balance beyond required reserves, this amount can only be used for one-time uses in subsequent years.
- One-time uses are defined as expenditures, transfers and/or reserves committed by the district for a finite period of time, on a non-recurring basis.

## Reserve Requirements:

- In addition, the General Operating Fund budget will be developed containing an ending fund balance equal to required reserves including the TABOR reserve plus a minimum of a three percent contingency reserve. The need for additional reserves shall be reviewed annually.
- Funds in the contingency reserve shall not be spent without board approval. The request for approval must include a plan for ensuring that the expenditure will not exceed the fixed dollar amount approved by the board, and must also include a plan for replenishing the reserve within two years from first dispersal.
- The budgets for all other funds will be developed to include, at a minimum, the required TABOR reserve.
- The General Operating Fund budget will be developed on a generally accepted accounting principles (GAAP) basis.

At June 30, 2013, the district is in compliance with these fund balance requirements.

## **Major Initiatives**

At its June 25, 2013 meeting, the Boulder Valley School District's Board of Education approved updates to its Mission Statement, Vision Statement, and Goals for 2013-18.

### Mission

The mission of the Boulder Valley School District is to create challenging, meaningful and engaging learning opportunities so that all children thrive and are prepared for successful, civically engaged lives.

## Vision of the Boulder Valley School District

We develop our children's greatest abilities and make possible the discovery and pursuit of their dreams, which when fulfilled will benefit us all. We provide a comprehensive and innovative approach to education and graduate successful, curious lifelong learners who confidently confront the great challenges of their time.

### Value Statements

- 1. We respect the inherent value of each student and incorporate the strengths and diversity of students, families, staff and communities.
- 2. Societal inequities and unique learning needs will not be barriers to student success.
- 3. We address the intellectual growth, health and physical development, and social emotional well-being of students.
- 4. We value accountability and transparency at all levels.

### Goals for 2013-18

GOAL #1 – Boulder Valley School District will partner with students, families, staff, and community members to address the unique learning needs of each student and to create meaningful and engaging opportunities for each child.

GOAL #2 – Boulder Valley School District will ensure that each student meets or exceeds appropriate expectations relative to intellectual growth, physical development and social emotional well-being.

GOAL #3 – Boulder Valley School District will ensure that students, families, staff, and community members experience a safe, healthy and inclusive environment.

The following strategies will be used to attain these goals:

- a. Boulder Valley School District will assess the success of each child as well as the overall effectiveness of the school system using multiple measures.
- b. Boulder Valley School District will partner with parents and the larger community to help all students enter school ready to learn and continue to learn throughout their educational experience.
- c. Boulder Valley School District will attract, hire and retain outstanding professionals at all levels of the organization.
- d. Boulder Valley School District will provide high quality professional development.
- e. Boulder Valley School District will increase community involvement, corporate partnerships, volunteer involvement, and legislative advocacy.

Background on the district's 2012-13 community consensus process for developing the new vision, mission and goals for the district may be found on the district's website.

## Other Information

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting and the Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the district for its comprehensive annual financial report for the fiscal year ended June 30, 2012. In order to be awarded a Certificate of Achievement and the Certificate of Excellence, the district must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report satisfied both generally accepted accounting principles and applicable legal requirements. The Certificate of Achievement and the Certificate of Excellence are valid for a period of one year. We believe that our current Comprehensive Annual Financial Report continues to meet the program requirements for both Certificate of Achievement and Certificate of Excellence programs. This document will be submitted to GFOA and ASBO respectively to determine eligibility for another certificate.

### Acknowledgments

Awards

The preparation of this report on a timely basis was made possible by the dedicated service of the entire staff of the Business Services Division. We would like to express our sincere appreciation to all members of the department for their contributions to this report. We also

thank the district's independent auditors, Swanhorst & Company LLC, for the professional manner in which they accomplished the audit and for their work to publish this Comprehensive Annual Financial Report. We would also like to thank Dr. Bruce K. Messinger, Superintendent of Schools and the board of education for their interest in and support of the finance and accounting operations of the Boulder Valley School District RE-2 and Heather Grooters CPA, District Accountant, for her assistance in the preparation of this document.

### **INDEPENDENT AUDITORS' REPORT**

## **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and remaining fund information of the Boulder Valley School District RE-2 as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the basic financial statements of the Boulder Valley School District RE-2, as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and remaining fund information of the Boulder Valley School District RE-2 as of June 30, 2013, and the respective changes in financial position and cash flows, where applicable, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

8400 E. Crescent Parkway • Suite 600 • Greenwood Village, CO 80111 • (720) 528-4306 Fax: (720) 528-4307

#### **Emphasis of Matter**

As discussed in Note 12 to the financial statements, in the year ended June 30, 2013, the Boulder Valley School District RE-2 adopted new accounting guidance as required by Governmental Accounting Standards Board Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

#### **Other Matters (Required Supplementary Information)**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the information in accordance with the auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Other Matters (Other Information)**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Boulder Valley School District RE-2's basic financial statements. The introductory section, combining and individual fund statements and schedules, statistical section, and auditors integrity report listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules and the auditors integrity report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling the information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 18, 2013, on our consideration of the Boulder Valley School District RE-2's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Boulder Valley School District RE-2's internal control over financial reporting and compliance.

## Management's Discussion and Analysis

As management of the Boulder Valley School District RE-2 (the district), we offer readers of the district's Comprehensive Annual Financial Report this narrative and analysis of the financial activities of the district for the fiscal year ended June 30, 2013. We encourage readers to consider the information presented here in conjunction with additional information that can be found in the letter of transmittal on pages 1-7 of this report.

## Financial Highlights

At June 30, 2013:

- The primary government has government-wide net position of \$150,432,961. Of this amount, unrestricted net position of \$24,028,660 may be used to meet the district's ongoing financial obligations.
- The primary government's net position increased from the prior year by \$1,906,033 and unrestricted net position decreased by \$5,586,624.
- At the end of the current fiscal year, the primary government's governmental funds reported combined ending fund balances of \$58,402,125 a decrease of \$6,925,612 from the prior year.
- At the end of the current fiscal year, unassigned fund balance for the General Fund is \$16,180,855 or 6.21% of total General Fund expenditures.
- The primary government's long-term general obligation debt decreased by \$12,250,000 to \$350,285,000.

### **Overview of the Financial Statements**

Management's discussion and analysis is intended to serve as an introduction to the Boulder Valley School District RE-2's basic financial statements. The district's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements.

### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers a broad overview of the district's financial activities in a manner similar to a private sector business.

The statement of net position presents information on all of the district's assets and liabilities. The difference between assets and liabilities is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the district is improving or deteriorating.

The statement of activities presents information showing how the district's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the district that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover a significant portion of their costs through user fees and charges (business activities). Governmental activities consolidate all of the following district funds: General Fund (consisting of the General Operating Fund, Risk Management Fund, Technology Fund, Athletics Fund, Community Schools Fund, Preschool Fund, Tuition Preschool Fund, and Colorado Preschool Program Fund), Bond Redemption Fund, Governmental Designated-Purpose Grants Fund, Transportation Fund, Capital Reserve Fund, Building Fund, Health Insurance Fund, and Dental Insurance Fund. Business-type activities include the Food Services Fund.

The government-wide financial statements include not only the district itself (known as the primary government), but also information about the district's five charter schools (known as component units). Financial information for the charter schools is presented separately from the primary government because the charter schools are legally separate from the district but are financially accountable to the district and provide service to the district's students.

The government-wide financial statements can be found on pages 32-33 of this report.

## Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The district, like other governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the district have been divided into three categories: governmental funds, proprietary funds and fiduciary funds.

**Governmental Funds:** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the district's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenue, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The district maintains two governmental funds called major funds: the General Fund (which combines the district's General Operating Fund, Risk Management Fund, Technology Fund, Athletics Fund, Community Schools Fund, Preschool Fund, Tuition Preschool Fund and the Colorado Preschool Program Fund), and the Bond Redemption Fund. They are presented separately in the fund financial statements with the remaining governmental funds combined into a single aggregated presentation labeled non-major governmental funds. Non-major funds

include the Transportation Fund, the Grants Fund, the Building Fund and the Capital Reserve Fund. Individual fund information for the non-major funds is presented as combining and individual fund statements and schedules after the notes section of this report.

The basic governmental fund financial statements can be found on pages 34-36 of this report.

**Proprietary Funds**: The district maintains two types of proprietary funds. Enterprise funds are used to present the same functions as the business-type activities presented in the government-wide financial statements. The district uses an enterprise fund to account for its food service operation. Internal service funds are used to accumulate and allocate costs internally among the district's various functions. The district uses internal service funds to account for employee benefit programs for health and dental insurance. Because these services predominately benefit governmental rather than business-type functions, they have been included with governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 37-39 of this report.

**Fiduciary Funds:** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because these sources of funds are not available to support the district's direct educational programs. The accounting method used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 40-41 of this report.

**Notes to the Financial Statements:** The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 42-58 of this report.

**Other Information:** In addition to the basic financial statements and accompanying notes, this report also contains other required supplementary information concerning the district's budget process. Within a statutory timeline, the board of education adopts a resolution appropriating an annual budget for each of the individual governmental funds. A Budgetary Comparison Schedule for the General Fund has been provided to demonstrate compliance with the district's adopted budget followed by the Notes to Required Supplementary Information. Required supplementary information can be found on pages 59-60 of this report.

The Combining and Individual Fund Statements and Schedules follow the Required Supplementary Information and include the remaining governmental funds budgetary comparison schedules. These statements and schedules can be found on pages 61-78 of this report.

## **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The assets of the primary government exceed liabilities by \$150,432,961 with an unrestricted balance of \$24,028,660 at June 30, 2013.

The largest portion of the district's net position, \$93,019,658 (61.84%), represents its investment in capital assets (e.g. land, land improvements, buildings, equipment, and vehicles), less related debt used to acquire these assets that is still outstanding. The district uses these capital assets to provide services to its constituents; consequently these assets are not available for future spending. Although the district's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets cannot be liquidated to pay the debt.

An additional portion of the district's net position, \$33,384,643 (22.19%), is subject to external restrictions on how the assets may be used. The remaining amount of net position, \$24,028,660 (15.97%), is available to fund the district's ongoing programs.

At the end of the current fiscal year, the district is able to report positive balances in all three of the categories of net position. The same situation held true for the prior fiscal year.

Overall, the district's net position increased \$1,906,033 from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental activities and business-type activities.

**Governmental Activities**. During the current fiscal year, net position for governmental activities increased \$1,894,239 from the prior fiscal year for an ending balance of \$150,245,859. Governmental activities total revenues decreased by \$1,506,241 or .47% while governmental activities total expenses decreased by \$462,789, or .14%. Reasons for these changes are as follows:

**Charges for Services**: The \$615,868 increase is due primarily to increased tuition revenues associated with district's expanding Preschool program and Community Schools program.

**Operating Grants and Contributions**: The \$1,337,954 decrease is due primarily to lower awards of Federal and State grant funds.

**Capital Grants and Contributions:** The \$3,823,057 decrease is due primarily to one-time \$3,500,000 award for a building remodel project.

**Local Property Taxes**: The \$2,631,110 increase is due primarily to an increase in both the district's assessed valuation and mill levy for the 2013 mill levy year.

**Specific Ownership Taxes:** The \$629,783 increase is due to increased automobile registrations collected at the county level.

**State Equalization**: The \$1,207,155 change is due to a funding increase from the State for an additional 221 students.

**Instruction Expenses:** The \$5,005,818 increase is due primarily to varying cost of living and step/grade pay increases given to all employees groups and a .9% increase in required contribution to PERA, the State of Colorado retirement plan.

**Supporting Services:** The \$4,733,623 decrease is due primarily to a current year decrease in spending from the proceeds of the district's 2006 Capital Improvement Program.

**Business-type Activities**. For the district's business-type activities, net position for the current fiscal year increased by \$11,794 to an ending balance of \$187,102. However, the district's food service program saw total revenues increase by \$371,923 or 6.72%. This increase is due to a 2.3%, 4.0% and 14.0% increase in lunch, breakfast and snack participation respectively. There were no lunch price increase in the current year. Additionally, the Federal reimbursement rate on reimbursable meals increased 2%.

Business-type activities total expenses increase by \$403,849 or 6.79%. This increase is attributable to salary and benefit increases given to staff, higher food costs caused by increased participation and increases in transportation costs.

In order to bring Business-type activities to its required reserve amount, an internal transfer from Governmental activities of \$452,802 was made during the current fiscal year.

### Financial Analysis of the Government's Funds

As noted earlier, the district uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds**. The focus of the district's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the district's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as it represents the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the district itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the district's Board of Education.

At June 30, 2013, the district's governmental funds reported combined fund balances of \$58,402,125, a decrease of \$6,925,612 from the prior year. Approximately 27.71% of this amount (\$16,180,855) constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of the fund balance is either nonspendable, restricted, committed, or assigned to indicate that it is not in spendable form (\$679,078), restricted for particular purposes (\$36,781,828), committed for particular purposes (\$2,636,718), or assigned for particular purposes (\$2,123,646).

Additional information on the district's ending fund balances can be found in Note 7 of this report.

## General Fund Highlights

The General Fund is the chief operating fund of the district. The General Fund under GASB 34 reporting requirements includes the General Operating Fund, Risk Management Fund, Technology Fund, Athletics Fund, Community Schools Fund, Preschool Fund, Tuition Preschool Fund, and the Colorado Preschool Program Fund. A Combining Schedule of Revenues, Expenditures and Changes in Fund Balances of the General Fund is shown on page 62 of this document. As of June 30, 2013, the General Fund shows an ending fund balance of \$28,332,616 up from the combined fund balance of \$27,809,116 for the prior year, an increase of \$523,500.

The following table reflects the amount of revenue from various sources.

	<u>2013</u>	<u>2012</u>	Amount of Change	Percentage Change
Revenues				
Property Taxes	\$ 177,938,577	\$ 175,986,286	\$ 1,952,291	1.11%
Specific Ownership Taxes	10,466,659	9,836,876	629,783	6.40%
State Equalization	57,695,380	56,488,225	1,207,155	2.14%
State Reimbursement Programs	7,892,551	7,704,980	187,571	2.43%
Local Revenues	13,476,272	12,681,238	795,034	6.27%
Total	\$267,469,439	\$262,697,605	\$4,771,834	1.82%

**Property Taxes:** Property Tax Revenues were based upon a levy of 37.997 mills applied against an assessed valuation of \$4,732,098,623 compared to 37.300 mills and an assessed valuation of \$4,727,938,464 in the prior year. Because the district's property tax levy is based on a calendar year, Property Tax Revenues include collections on both the 2012 and 2013 levies.

**Specific Ownership Taxes:** (SOT) is a personal property tax based upon the taxable value of vehicles registered in Boulder County. The ownership tax rate is based upon the age of the vehicle from the date of manufacturer. In the current fiscal year, specific ownership tax revenue increased by 6.40%.

**State Equalization**: State Equalization increased by 2.14% in the current year as the district received funding for 221 additional students.

**State Reimbursement Programs:** Funding for state reimbursement programs (Special Education, Vocational Education, ELPA, Talented and Gifted, and Medicaid) increased by 2.43%. Each program received small increases in funding with the largest increase for Vocational Education.

**Local Revenues:** Local revenues increased by 6.27% due primarily to increased tuition collections for on-line learning programs, preschool tuition, and before and after school programs.

The following table reflects expenditures by major program area. Overall, expenditures increased by 1.32% from the previous year.

	<u>2013</u>	<u>2012</u>	Amount of Change	Percentage Change
<u>Expenditures</u>				
Instruction - Regular Programs	\$ 136,207,237	\$ 131,519,684	\$4,687,553	3.56%
Instruction - Special Programs	42,512,571	42,994,795	(482,224)	-1.12%
Student Support Services	10,458,221	9,605,149	853,072	8.88%
Instructional Staff Services	8,696,314	8,802,491	(106,177)	-1.21%
General Administration	3,014,889	2,916,898	97,991	3.36%
School Administration	19,073,535	18,476,711	596,824	3.23%
Business Services	3,098,198	2,731,015	367,183	13.44%
Operations and Maintenance	21,139,479	20,023,856	1,115,623	5.57%
Central Support Services	11,467,508	11,940,864	(473,356)	-3.96%
Community Services	4,752,458	4,667,285	85,173	1.82%
Debt Service		3,338,525	(3,338,525)	-100.00%
Total	\$260,420,410	\$257,017,273	\$ 3,403,137	1.32%

Approximately 90% of General Fund expenditures are for salary and benefits. For the 2012-13 fiscal year, all employees received a 1.0% cost of living increase, select employee groups received step increases and Unit B employees received mid-year raises as a transition to a new professional salary schedule. Additionally, the district was required to make an additional .9% contribution to PERA, the State of Colorado's retirement plan.

In 2012, the district paid off the remaining balance of its 2003 Certificates of Participation issue; saving the district \$254,375 in future interest costs.

The Bond Redemption Fund is the district's other major fund. The fund's ending fund balance increased by \$35,493 to \$24,492,573. Property tax revenues in the current year were based upon a 2013 levy of 6.007 mills applied against an assessed valuation of \$4,732,098,623. The large ending fund balance is necessary to have sufficient cash on hand to make debt service payments as they become due. Property tax levies are based upon a calendar year cycle while debt service payments are made each fiscal year in December and June.

## **General Operating Fund Highlights**

The General Operating Fund is the core operating fund of the district. At the end of the fiscal year, fund balance increased by \$140,156 to \$25,125,334.

### Revenues

General Operating Fund Revenues increased by \$4,161,451 from the prior year. Major revenue variances are shown in the table below.

	June 30, 2013 <u>Amount</u>	June 30, 2012 <u>Amount</u>	Increase <u>(Decrease)</u>	
Local Revenues				
Property Taxes	\$ 177,938,577	\$ 175,986,286	\$ 1,952,291

## **General Operating Fund Revenues by Source**

### **Expenditures**

General Operating Fund expenditures increased by .97% or \$2,326,189 to \$242,511,242

General Operating Fund expenditures by function are shown in the following table. 77.76% of expenditures are instruction related: regular program instruction, special program instruction, and direct instructional support. 16.19% of expenditures are for school administration, operations and maintenance of district facilities. 6.05% of expenditures are for district-wide services and community obligations.

## Boulder Valley School District RE-2 2013 General Operating Fund Expenditures By Function

Total	100.00%	100.00%	100.00%	100.00%	100.00%

An analysis of the district's General Operating Fund ending fund balance is shown in the following chart. Over the 10 year period 2003-04 to 2012-13, the fund balance of the General Operating Fund has fluctuated from a low of \$13,117,998 at June 30, 2004 to its current amount of \$25,125,334.

There are many factors that caused this fluctuation over time. First, the Colorado School Finance Act allows school districts to pass mill levy override elections up to a maximum of 25% of total program funding. The maximum override percentage increased from 20% to 25% beginning with the 2009-10 fiscal year. The district passed mill levy override elections in November 1991, November 1998, November 2002 and November 2010 of \$7,062,468,

\$10,600,000, \$15,000,000 and \$22,500,000 respectively. In 2010, the School Finance Act was amended to allow district's to change the mill levy override amounts to a percentage of total program instead of a fixed dollar amount. This allows the override amount to grow as the district's total program grows. With the 1998 Referendum, a stabilization fund was established to fund the growing personnel costs that were expected to exceed the fixed revenue stream over time. This stabilization fund was continued and supplemented with the 2002 referendum. Previously, it was standard practice to spend 100% of each override on new programs and then seek voter approval of additional revenues when the fund was depleted. With Colorado's financial issues and the district's stable enrollment, the district changed this practice, halting the use of fund balance for ongoing costs and used the existing stabilization fund to fully fund GAAP budgeting as part of the establishment of Board Policy DB Fund Balance Requirements.

## General Fund Budgetary Highlights

Colorado local government uniform accounting and budget laws require that a budget be adopted and reported for all funds. Total expenditures for each fund may not exceed the amount appropriated. Appropriations for a fund may be increased provided they are offset by unanticipated revenue. All appropriations lapse at the end of the fiscal year. Supplemental appropriations that alter the total expenditures of any fund must be approved by the Board of Education.

The district's original budget for the 2012-13 fiscal year was adopted by the Board of Education at its June 25, 2012 meeting while the district's revised budget was adopted at its November 13, 2012 meeting. The total General Fund appropriation was increased primarily due to increased funding provided by the School Finance Act and additional tuition and fee revenues.

A Budgetary Comparison Schedule for the General Fund is included on page 59 of this document. Significant differences between final budgeted and actual revenues are as follows:

	Final	Actual	
	<u>Budget</u>	<u>Revenues</u>	<u>Difference</u>
Property Taxes	\$ 182,851,222	\$ 177,938,577	\$(4,912,645)
State Equalization	54,149,059	57,695,380	3,546,321
State Reimbursement Programs	6,760,573	7,892,551	1,131,978
Specific Ownership Taxes	9,314,725	10,466,659	1,151,934

The variances between current property taxes and state equalization are due to a downward adjustment in the district's estimated assessed valuation which caused an increase to state equalization. The budget was not adjusted to reflect this change. The increase in state reimbursement programs is due to allocation adjustments made at the state level after adoption of the budget. The increase in specific ownership tax is due to higher than projected growth in automobile registrations at the county level.

Total variance between final budget and actual expenditures is \$9,241,284 after deducting reserves. Significant causes of these differences are as follows:

	Vacancy				Total	Supplies/		
	Average Cost		Reserves	Payouts	Salary	Materials	Grand	
<u>Program</u>	<u> </u>	Variance	1	Variance	<u>Variance</u>	<u>Variance</u>	<u>Carryovers</u>	<u>Total</u>
Instruction - Regular Programs	\$	1,513,129	\$	646,048	\$ 204,205	\$ 2,363,382	\$ 1,019,949	\$ 3,383,331

Student Support Services		(8,363)		(73)	27,674	19,238	1,054,709	1,073,947
Instructional Staff Services		(368,296)		3,492	23,119	(341,685)	860,861	519,176
General Administration		39,983		-	(92,162)	(52,179)	3,579	(48,600)
School Administration		87,316		61,325	164,544	313,185	349,972	663,157
Business Services		183,516		-	(34,310)	149,206	475,574	624,780
Operations and Maintenance		416,055		-	(14,849)	401,206	(21,484)	379,722
Central Support Services		(39,989)		-	(12,701)	(52,690)	853,966	801,276
Community Services		4,461		-	(73)	4,388	44,410	48,798
Total	\$	2,830,852	\$	1,009,004	\$ 338,461	\$ 4,178,316	\$ 5,404,624	\$ 9,582,941

**Average Cost Variance:** Most district positions are budgeted on an average salary and benefit cost by position type. This allows schools and departments to manage their personnel costs on an FTE basis instead of a dollar basis. This savings is due to the fact that the average salary and benefit cost was higher than the actual cost for most positions.

**Vacancy Reserves Variance**: This variance is the savings due to short term vacant positions and positions held in reserve throughout the district.

**Payout Variance:** Upon retirement, resignation, or termination, employees are eligible to receive payouts of unused vacation time based upon the terms of their employment agreement. The amount budgeted annually is based upon historical averages and when the actual payouts are less than average, budget savings occur.

**Supply/Materials Carryover:** The district allows schools and departments to carryover unused budget allocations from year to year, subject to some limitations. Schools and departments use this procedure to accumulate funds for large purchases or multi-year projects; it also keeps schools and departments from excessive year end spending.

### **Capital Assets and Debt Administration**

The district's investment in capital assets for its governmental and business-type activities as of June 30, 2013 and 2012 are \$445,357,100 and \$447,978,998, respectively.

In November 2006, voters approved the sale of \$296,800,000 of general obligation bonds to fund critical repairs and capital improvements to the district's infrastructure as identified in the district's May 2006 Educational Facilities Master Plan. The bonds were issued in two installments; \$120,000,000 in February 2007 and \$176,800,000 in February 2009. In addition, the district realized an additional \$23.5 million in premiums from the sale of the bonds and interest earnings. These funds were used to cover bond issuance costs, overhead costs, and to supplement the Master Plan project budgets.

The 2012-13 fiscal year was the seventh year of work on these projects. Of the \$320.3 million available, approximately \$317.5 million has been spent on these projects from inception through June 30, 2013.

Capital asset additions in 2013 totaled nearly \$16.3 million. This consisted of \$8.7 million of additions from bond proceeds discussed above; \$5.5 million from the proceeds of a state grant, just over \$1 million of vehicle purchases, including 12 new school busses and 3 new maintenance vehicles, and other asset additions of about \$1.1 million.

Additional information on the district's capital assets can be found in Note 4 of this report.

At June 30, 2013, the district had total bonded debt outstanding of \$350,285,000 backed by the full faith and credit of the district. Additionally, the district has long-term debt obligations for compensated absences in the amount of \$6,589,289 outstanding at the end of the current fiscal year.

## Boulder Valley School District RE-2 Long Term Debt

	<u>Jı</u>	<u>une 30, 2013</u>	<u>J</u>	une 30, 2012
General Obligation Bonds	\$	350,285,000	\$	362,535,000
Compensated Absences		6,589,289		6,231,216
	\$	356,874,289	\$	368,766,216

The district maintains a "AA" rating from Standard & Poor's, an "AA+" rating from Fitch Ratings and a "Aa2" rating from Moody's Investors Services for its general obligation debt.

State statue limits the amount of general obligation debt a government may issue to 20% of its total assessed valuation. At June 30, 2013, the district's legal debt limit is \$946,419,725 and The district's total outstanding general obligation bonds are under the legal debt limit by \$596,134,725.

Additional information on the district's long-term obligations can be found in Note 6 of this report.

## Economic Factors and Next Year's Budget

Each year the state budget is crafted by the governor and legislature to determine how much of the total budget will be allocated to K-12 education. The state economic picture is important to the district because a major source of funding for the district's General Operating Fund is received through the state's School Finance Act (SFA) established by the state legislature. During the recent recession, state revenue shortfalls forced cuts to K-12 education even though expectations for constitutionally mandated funding increases existed under Amendment 23. After the state sets the total funding for K-12 public education, each local district determines how to fund its specific system and every school within its district.

Over 73% of the district's General Operating Fund revenues are a result of state level decisions. For the 2013-14 fiscal year, the Colorado General Assembly approved the School Finance Act that increased the statewide per pupil base funding by inflation, or 1.9%. However, for the third consecutive year, the Colorado State Legislature decreased the statewide total funding by applying a negative factor to reduce total program funding. For the district, this negative factor equates to \$34.7 million in lost state revenues, as calculated through the SFA.

The district's projected state per pupil revenue (PPR) for 2013-14 is \$6,546 after accounting for a \$2 per pupil rescission to pay for finance staff at the Colorado Department of Education. Total program funding, defined by the SFA, is projected to be \$189.4 million (this figure does not include the estimated uncollectable property taxes due to the timing of tax collections), an increase of \$7.3 million from the district's 2012-13 Revised Budget.

The funded pupil count is the real driver of school funding. The SFA identifies a per pupil funding amount, and the number of full-time students enrolled in a district determines the amount of total funding the district receives. The funded pupil count refers to the number of full-time students enrolled in a district. Not all students (kindergartners for example) attend school on a full-time basis; the funded pupil count is different from the total enrollment. The official pupil count occurs each October and results in the funded pupil count numbers.

When projecting student enrollment, the budget implications are substantial if expected growth is not realized. If a shortfall in actual enrollment occurs as compared to projections, this information is generally received after the close of the first quarter of the fiscal year and many staffing and programmatic changes cannot be made without significant impacts to students. For this reason, the district generally undertakes a reasonable, yet conservative, projection methodology to reduce the risk of a funding shortfall compared to expected revenues.

### **Requests for Information**

This financial report is designed to provide a general overview of the Boulder Valley School District RE-2's finances for all those with an interest in the district. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

### Boulder Valley School District RE-2 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2013

Amounts reported for governmental activities in the statement of activities are different because:

Net Change in Fund Balances	\$ (6,925,612)
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which depreciation expense (\$16,471,743) and loss on disposal (\$2,069,935) exceeded capital outlay \$13,312,909 and capital contributions \$2,634,803	
in the current year.	(2,593,966)
Revenues that do not provide current financial resources are deferred in the governmental fund financial statements but are recognized in the government-wide financial statements.	718,749
Repayments of debt principal are expenditures in the governmental funds, but they reduce long-term liabilities in the statement of net position and do not affect the statement of activities.	12,250,000
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position and does not affect the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt related items: amortization of loss on refunding (\$341,091), and amortization of bond premium \$919,291.	578,200
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported expenditures in the governmental funds. This amount represents the change in accrued interest payable \$45,958 and compensated absences (\$358,073).	(312,115)
An internal service fund is used by management to charge the costs of employee health and dental insurance to individual funds. The net revenue of the internal service fund is included in governmental activities in the statement of activities.	 (1,821,017)
Change in Net Position of Governmental Activities	\$ 1,894,239

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Boulder Valley School District RE-2 (the "district") conform to generally accepted accounting principles as applicable to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following is a summary of the more significant policies.

### **Reporting Entity**

The financial reporting entity consists of the district, organizations for which the district is financially accountable, and organizations that raise and hold economic resources for the direct benefit of the district. All funds, organizations, institutions, agencies, departments and offices that are not legally separate are part of the district. In addition, any legally separate organizations for which the district is financially accountable are considered part of the reporting entity. Financial accountability exists if the district appoints a voting majority of the organization's governing board and is able to impose its will on the organization, or if the organization provides benefits to, or imposes financial burdens on, the district.

Based upon the application of this criteria, the district includes five charter schools within its reporting entity. The charter schools are public schools authorized by State statutes to provide alternatives for parents, pupils and teachers. The charter schools are fiscally dependent on the district and their exclusion would render the district's financial statements incomplete. Since the charter schools have separately elected boards, the balances and transactions of the charter schools are discretely presented in the financial statements. Separate financial statements may be obtained by contacting the schools individually at the following addresses: Boulder Preparatory High School at 5075 Chaparral Court, Boulder, Colorado 80301; Horizon's K-8 School at 4545 Sioux Drive, Boulder, Colorado 80303; Peak to Peak Charter School at 800 Merlin Drive, Lafayette, Colorado 80026; Summit Middle School at 4655 Hanover Avenue, Boulder, Colorado, 80305; and Justice High School at 805 Excalibur, Lafayette, Colorado 80026.

### Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all nonfiduciary activities of the district and its component units. For the most part, the effect of interfund activity has been removed from these statements. Exceptions to this general rule are charges for interfund services that are reasonably equivalent to the services provided. *Governmental activities,* which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities,* which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the district is financially accountable.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to students or other customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the district's government-wide financial statements.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary and trust fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds utilize the accrual basis of accounting.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collected within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the district considers revenues to be available if they are collected within 60 days of the end of the current year and within 90 days of the end of the current year for grants.

Taxes, intergovernmental revenues, grants, and interest associated with the current year are considered to be susceptible to accrual and so have been recognized as revenues of the current year. All other revenues are considered to be measurable and available only when cash is received by the district.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the fund's principal ongoing operations. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation** (Continued)

When both restricted and unrestricted resources are available for use, it is the district's practice to use restricted resources first, then unrestricted resources as they are needed.

In the fund financial statements, the district reports the following major governmental funds:

The *General Fund* is the district's primary operating fund. It accounts for all financial resources of the district, except those required to be accounted for in another fund.

The *Bond Redemption Fund* accounts for property taxes restricted for the payment of long-term debt obligations of the district.

Additionally, the district reports the following fund types:

The *Food Services Enterprise Fund* accounts for the financial activities associated with the district's breakfast and lunch programs.

The *Internal Service Funds* account for the district's employee health and dental insurance programs, which are partially self-insured by the district.

The *Private-Purpose Trust Funds* account for the activities of various scholarship accounts. The district holds all resources in a purely custodial capacity.

The *Agency Fund* is used to account for resources used to support each school's student and fundraising activities. The district holds all resources in a purely custodial capacity.

### Assets, Liabilities and Fund Equity

*Cash and Investments* - The district utilizes the pooled cash concept whereby cash balances of each of the district's funds and component units are pooled and invested by the district. It is the intention of the investment pool to maximize interest income, and securities are selected according to their risk, marketability, and diversification. Investments are reported at fair value.

For purposes of the statement of cash flows, the district considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Investments in pooled cash are considered to be cash equivalents.

Accounts Receivable - All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Property taxes levied in the current year but not received at year end are reported as taxes receivable and are presented net of an allowance for uncollectible taxes of 1% of the total levy.

*Interfund Receivables and Payables* - During the course of operations, numerous transactions occur between individual funds. The resulting receivables and payables are classified on the balance sheet as *due from other funds* and *due to other funds*. Any residual balances outstanding between governmental and business-type activities are reported in the government-wide financial statements as internal balances.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Assets, Liabilities and Fund Equity (Continued)

*Inventories* - Materials and supplies inventories are stated at average cost. Food Services Fund inventories consist of purchased and donated commodities. Donated inventories, received at no cost under a program supported by the federal government, are valued based upon the cost furnished by the federal government.

Inventory is recorded as an asset when individual items are purchased. When they are consumed, they are recorded as expenses in the government-wide financial statements and proprietary fund financial statements or as expenditures in the governmental fund financial statements.

*Prepaid Expenses* - Payments made to vendors for services that will benefit subsequent years are recorded as prepaid items in both government-wide and fund financial statements using the consumption method.

*Capital Assets* - Capital assets, which include property and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and the proprietary funds in the fund financial statements. Capital assets are defined by the district as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materiality extend assets lives are not capitalized.

Property and equipment of the district and its component units is depreciated using the straight line method over the following estimated useful lives.

Land Improvements	25 years
Buildings	50 years
Equipment and Vehicles	5 to 20 years

Deferred Outflows of Resources - In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The district only has one item that qualifies for reporting in this category. It is loss on refunding in the government-wide statement of net position. A loss on refunding results from the difference in the carrying value of refunded debt and its reaquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Accrued Summer Salaries - Salaries and benefits of certain contractually employed personnel are paid over a twelve month period from August to July, but are earned during a school year of approximately nine to ten months. The salaries and benefits earned, but unpaid, at June 30, 2013, are reflected as a liability in the accompanying financial statements.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Assets, Liabilities and Fund Equity (Continued)

*Unearned Revenues* - Unearned revenues include grant funds that have been collected but the corresponding expenditures have not been incurred, and tuition and fees received in advance.

*Compensated Absences* - District policy allows unlimited accumulation of sick time and accumulation of vacation time to a maximum of 40 days for certain personnel classifications.

Accrued sick leave is paid to those eligible employees upon termination of employment at varying rates based upon longevity and/or classification. Eligible employee groups include administration, professional technical, clerical, service, paraeducators, and teacher frozen sick.

Accrued vacation is paid to those eligible employees upon termination of employment.

These compensated absences are recognized as current salary costs when earned in the proprietary funds and when due in the governmental funds. A long-term liability has been recorded in the government-wide financial statements for the accrued compensated absences.

*Long-Term Debt* - In the government-wide financial statements and the proprietary fund in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Debt premiums, discounts and accounting losses resulting from debt refundings are deferred and amortized over the life of the debt using the straight-line method. In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses.

Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as current expenses or expenditures.

Deferred Inflows of Resources - In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The district has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts are earned.

*Fund Equity* - At the governmental fund financial reporting level, fund equity is classified as *fund balance*. For all other reporting, it is classified as *net position*.

*Net Position* - In the government-wide financial statements and the proprietary funds in the fund financial statements, net position is restricted when constraints placed on net position are externally imposed.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Assets, Liabilities and Fund Equity (Continued)

*Fund Balance* - In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the district is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Nonspendable fund balance Amounts that are not in a spendable form (such as inventory) or are required to be maintained intact (such as the corpus of an endowment fund).
- Restricted fund balance Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed fund balance Amounts constrained to specific purposes through resolution by the board of education are reported as committed. Amounts cannot be used for any other purpose unless the board takes the same action to modify or rescind the commitment.
- Assigned fund balance Amounts constrained by the district for specific purposes, but are neither restricted nor committed. Through resolution, the board of education has authorized the district's superintendent to assign fund balances.
- Unassigned fund balance The residual amount reported when the balances do not meet any of the above criterion. The district reports positive unassigned fund balance only in the general fund. Negative unassigned balances may be reported in all funds.

*Fund Balance Policy* - The district's policy is to have a sufficient balance in the Combined General Fund with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing. The district shall strive to maintain a yearly fund balance in the General Operating Fund in which the total fund balance is 3% of the total operating expenditures in addition to any amounts required by statute.

*Flow Assumptions* - In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

### Revenues

*Property Taxes* - Property taxes for a calendar year are certified in arrears on December 10 and attached as a lien on the property the previous January 1. For example, property taxes owed in 2013 are certified to the county in December 2012 and are available for collection on the levy date, January 1. Property taxes are payable in full by April 30 or in two equal installments due February 28 and June 15. Property tax receipts collected by the county are generally remitted to the district in the subsequent month.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Revenues** (Continued)

*State Revenues* - The district receives unrestricted state equalization revenues and the charter schools receive capital construction funding as required by state statutes.

*Interest Income* - Interest income earned on pooled cash is recorded as revenue in the General Fund. Interest income from the Bond Redemption Fund and certain Trust and Agency Fund accounts is recorded when earned in the related fund.

### NOTE 2: CASH AND INVESTMENTS

At June 30, 2013, the district had the following cash and investments:

Cash on Hand Deposits Investments	\$ 105,896 56,181,040 34,571,017
Total	\$ 90,857,953
Cash and investments are reported in the financial statements as follows:	
Primary Government Cash and Investments Primary Government Restricted Cash and Investments Fiduciary Funds Cash and Investments Charter School Cash Held by District	\$ 80,558,844 3,232,598 4,877,993 2,188,518
Total	\$ 90,857,953

#### Deposits

The Colorado Public Deposit Protection Act (PDPA) requires all local government entities to deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. The PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all uninsured public deposits as a group. The fair value of the collateral must be at least equal to 102% of the uninsured deposits. At June 30, 2013, the district had bank deposits of \$56,520,950 collateralized with securities held by the financial institutions' agents but not in the district's name.

### NOTE 2: CASH AND INVESTMENTS (Continued)

#### Investments

The district is required to comply with state statutes and district policy which specify investment instruments meeting defined rating, maturity, and concentration risk criteria in which local governments may invest, which include the following. State statutes do not address custodial risk.

- Obligations of the United States and certain U.S. Agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptance of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

*Interest Rate Risk* - State statutes generally limit the maturity date of investment securities to five years from the date of purchase unless the governing board authorizes the investment for a period in excess of five years.

*Credit Risk* - State statutes limit certain investments to those with specified ratings provided by nationally recognized statistical rating organizations, depending on the type of investment.

*Concentration of Credit Risk* - State statutes do not limit the amount the district may invest in one issuer, except for corporate securities.

Local Government Investment Pool - At June 30, 2013, the district had \$34,571,017 invested in the Colorado Local Government Liquid Asset Trust (Colotrust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces the requirements of creating and operating Colotrust. The pool operates in conformity with the Securities and Exchange Commission's Rule 2a-7 as promulgated under the Investment Company Act of 1940, as amended, which includes the maintenance of each share equal in value to \$1.00. Colotrust is rated AAAm by Standard and Poor's. Investments of Colotrust are limited to those allowed by state statutes. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. The custodian's internal records identify the investments owned by the participating governments.

### **Restricted Cash and Investments**

Cash and investments of \$75,612, representing required deposits for employee flexible spending benefits have been restricted in the General Fund. In addition, \$3,156,986, representing unspent bond proceeds, have been restricted in the Building Fund.

#### NOTE 3: INTERFUND BALANCES AND TRANSFERS

Due from Other Funds	Due to Other Funds	 Balance
General Fund General Fund	Grants Fund Food Services Fund	\$ 2,071,913 125,259
Total		\$ 2,197,172

The General Fund has temporarily covered the negative cash balance in the Grants Fund and Food Services Fund.

Transfers In	Transfers Out		Balance
Capital Reserve Fund Transportation Fund Food Services Fund	General Fund General Fund General Fund	\$	3,687,515 2,385,212 452,802
Total		<u></u>	6,525,529

The General Fund transfers a portion of its funding to the Capital Reserve Fund to be used for capital purposes. The General Fund subsidizes the student transportation program reported in the Transportation Fund and the food services program reported in the Food Services Fund.

### NOTE 4: <u>CAPITAL ASSETS</u>

Capital asset activity for the year ended June 30, 2013, is summarized below.

	 Balances 6/30/12			Deletions			Balances 6/30/13
Governmental Activities							
Capital Assets, Not Being Depreciated	0 004 700		. ===			•	
Land	\$ 2,861,733	\$	1,756,335	\$	-	\$	4,618,068

Depreciation expense was charged to programs of the district as follows:

Governmental Activities Instruction	\$ 14,210,419
Supporting Services	2,261,324
Total	\$ 16,471,743

#### NOTE 5: SHORT-TERM DEBT

During the year ended June 30, 2013, the district borrowed \$96,260,945 from the statesponsored interest-free loan program to provide cash flow throughout the fiscal year. The loan was paid in full by June 30, 2013, from property taxes received primarily from February through June. The schedule of changes is summarized below.

	Balances 6/30/12					Payments	 Balances 6/30/13
State-sponsored interest-free loan	\$	-	\$	96,260,945	\$	96,260,945	\$ 
Total	\$	-	\$	96,260,945	\$	96,260,945	\$ -

### NOTE 6: LONG-TERM DEBT

Following is a summary of long-term debt transactions of the district for the year ended June 30, 2013.

	Balances 6/30/12	A	Additions	Payments	Balances 6/30/13	Due Within One Year
Governmental Activities	 0.00.12			 i ujiiono	 0.00.10	
General Obligation Bonds	\$ 362,535,000	\$	-	\$ 12,250,000	\$ 350,285,000	\$ 12,790,000
Bond Premium	6,989,048		-	919,291	6,069,757	-
Compensated Absences	 6,231,216		4,511,894	 4,153,821	6,589,289	 329,465
Total	\$ 375,755,264	\$	4,511,894	\$ 17,323,112	\$ 362,944,046	\$ 13,119,465

Compensated absences are expected to be liquidated primarily with resources of the General Fund.

### NOTE 6: LONG-TERM DEBT (Continued)

### **General Obligation Bonds**

General obligation bonds payable at June 30, 2013, are comprised of the following issues:

Total Bond payments, to maturity, are as follows:	\$ 350,285,000
\$120,000,000 General Obligation Bonds, Series 2007. Issued to implement a district-wide capital construction and improvement program. Principal payments due on December 1 and interest payments due on December 1 and June 1, through 2032. Interest accrues at rates ranging from 3.50% to 4.50%.	\$ 107,745,000
\$49,910,000 General Obligation Bonds, Series 2007B. Issued to refund certain general obligation bonds. Principal payments due on December 1 and interest payments due on December 1 and June 1, through 2014. Interest accrues at rates ranging from 4.00% to 5.00%.	\$ 16,370,000
\$176,800,000 General Obligation Bonds, Series 2009. Issued to implement a district-wide capital construction and improvement program. Principal payments due on December 1 and interest payments due on December 1 and June 1, through 2034. Interest accrues at rates ranging from 4.00% to 5.00%.	\$ 176,100,000
\$53,645,000 General Obligation Bonds, Series 2009B. Issued to refund the general obligation bonds, Series 1999. Principal payments due on December 1 and interest payments due on December 1 and June 1, through 2018. Interest accrues at rates ranging from 2.00% to 4.00%.	\$ 50,070,000

Bond payments, to maturity, are as follows:

Year Ended June 30,	Principal	Interest	Total
2014	12,790,000	15,310,380	28,100,380
2015	13,370,000	14,706,524	28,076,524
2016	13,835,000	14,199,117	28,034,117
2017	14,225,000	13,770,017	27,995,017
2018	14,685,000	13,298,380	27,983,380
2019 - 2023	65,620,000	58,001,338	123,621,338
2024 - 2028	75,945,000	41,882,644	117,827,644
2029 - 2033	95,100,000	22,312,144	117,412,144
2034 - 2035	44,715,000	2,263,875	46,978,875
Total	\$ 350,285,000	\$ 195,744,419	\$ 546,029,419

### NOTE 6: LONG-TERM DEBT (Continued)

### General Obligation Bonds (Continued)

In prior years, the district deposited bond proceeds in an irrevocable trust with an escrow agent to provide for all future debt service payments for \$2.445 million of the 1997 General Obligation Bonds. Accordingly, the liability for the defeased debt has been removed from the district's financial statements. The total outstanding balance of the defeased debt at June 30, 2013, was \$2.445 million.

### NOTE 7: FUND BALANCES

The following table portrays the detailed fund balance classifications which are summarized on the Governmental Funds Balance Sheet.

				BOND	ONMAJOR /ERNMENTAL	
	GE	ENERAL	RE	DEMPTION	FUNDS	 TOTAL
FUND BALANCES						
Nonspendable:						
Inventories	\$	376,107	\$	-	\$ -	\$ 376,107
Prepaid Items		302,971		-	 -	 302,971
Total Nonspendable		679,078		-	-	679,078
Restricted For:						
Debt Service		-		24,492,573	-	24,492,573
Capital Projects		-		-	2,747,039	2,747,039

Colorado Preschool Program		33,714		-	-	33,714
Emergencies		7,462,594		-	706,251	8,168,845
Medicaid		1,144,045		-	-	1,144,045
Flexible Spending		75,612		-	 -	 75,612
Total Restricted		8,835,965		24,492,573	3,453,290	36,781,828
Committed To:						
School Resource Allocation Funds		538,711		-	-	538,711
Textbook and Learning Material Funds		2,091,402		-	-	2,091,402
School Board Member Inservice Travel Funds		6,605		-	 -	 6,605
Total Committed		2,636,718		-	-	2,636,718
Assigned To:						
Transportation		-		-	509,168	509,168
Capital Projects		-		-	 1,614,478	 1,614,478
Total Assigned		-		-	2,123,646	2,123,646
Unassigned, Reported In						
General Fund	1	6,180,855		-	 -	 16,180,855
Total Unassigned	1	6,180,855		-	-	16,180,855
TOTAL FUND BALANCES	\$ 2	8,332,616	\$	24,492,573	\$ 5,576,936	\$ 58,402,125

#### NOTE 8: RISK MANAGEMENT

The district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The district plans to provide for or restore the economic damages of those losses through risk retention and risk transfer.

#### Joint School District Worker's Compensation Self-Insurance Pool

The district, along with Aurora, Cherry Creek, and Littleton School Districts, combined to form the Joint School District Pool for Workers' Compensation (the JSD Pool) which is a public entity risk pool currently operating as a common risk management and insurance program for the school district members noted above. The JSD Pool is administered by a Board of Directors consisting of one individual from each of the four school districts, generally the district's chief financial officer.

The board exercises control over the Pool and has contracted the management of the Pool operations to third parties. The participating districts make annual contributions to the JSD Pool based on the size of their respective payrolls. The contributions are retroactively adjusted based on the districts' actual loss experience.

Each member of the JSD Pool is responsible for the first \$100,000 of each loss. Losses between \$100,000 and \$500,000 are pooled between the member districts, and losses in excess of \$500,000 are reinsured for up to statutory limits.

There is no current or long-term debt associated with the JSD Pool. The contributions are determined on an actuarial basis and are sufficient to provide for the estimated claims and losses as determined by the actuarial computation. No settlements exceeded insurance coverage for each of the past three fiscal years.

### Colorado School Districts Self-Insurance Pool

The Colorado School Districts Self-Insurance Pool (CSDSIP), sponsored by the Colorado Association of School Boards (CASB), operates as a self-insurance pool comprised of various school districts and other related public educational entities within the State of Colorado. The CSDSIP is administered by the Pool Board which is comprised of eight members. The eight members include the president, vice president, and executive director of CASB, with the remaining five members being appointed by the Board of Directors of CASB. The district pays an annual premium to the CSDSIP for various types of property and liability insurance coverage. The Pool Agreement provides that the CSDSIP will be self-sustaining through member premiums and will reinsure through a duly authorized insurer. The reinsurance covers claims against the CSDSIP in excess of specific claim amounts and in the aggregate in an amount and at limits determined by the CSDSIP to be adequate to protect the solvency of the CSDSIP. The district did not have any significant reductions in insurance coverage in the prior year, nor did it have any insurance settlements exceed insurance coverage in the past three years.

### NOTE 8: RISK MANAGEMENT (Continued)

### Health and Dental Self-Insurance

Under the district's employee health insurance plan and dental insurance plan, the district provides coverage for its employees. Claims liabilities are reported in each fund respectively if information available prior to the issuance of the financial statements indicates that it is probable that the liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated. Other than current amounts, the district believes the estimated claims liability is not fully measurable and the district could incur additional costs related to IBNR claims. Changes in claims payable for the employee health insurance plan and dental insurance plan were as follows:

	Health Insurance	Dental Insurance
Claims Payable, June 30, 2011	\$ 2,655,630	\$ 445,218
Claims Incurred and Adjustments	13,893,583	1,953,106
Payments	(12,979,700)	(1,941,160)
Claims Payable, June 30, 2012	3,569,513	457,164
Claims Incurred and Adjustments	13,697,544	1,937,249
Payments	(14,294,094)	(1,975,885)
Claims Payable, June 30, 2013	\$ 2,972,963	\$ 418,528

Claims payable at June 30, 2013 are expected to be liquidated within the next fiscal year.

### NOTE 9: DEFINED BENEFIT PENSION PLAN

*Plan Description* - The district contributes to the School Division Trust Fund (SDTF), a costsharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (PERA). The SDTF provides retirement and disability, annual increases, and death benefits for members or their beneficiaries. All employees of the district are members of the SDTF. Title 24, Article 51 of the Colorado Revised Statutes (CRS), as amended, assigns the authority to establish benefit provisions to the State Legislature.

PERA issues a publicly available annual financial report that includes financial statements and required supplementary information for the SDTF. That report may be obtained by writing to PERA of Colorado, 1301 Pennsylvania Street, Denver, Colorado 80203 or by calling PERA at 303-832-9550 or 1-800-759-PERA (7372).

*Funding Policy* - The contribution requirements of plan members and the district are established under Title 24, Article 51, Part 4 of the CRS, as amended. The contribution rate for members was 8% of covered salaries. The district's contribution rate for calendar years 2011, 2012, and 2013 was 14.75%, 15.65%, and 16.55% of covered salary, respectively. A portion of the district's contribution (1.02% of covered salary) is allocated to the Health Care Trust Fund (See Note 10). The district's contributions to the SDTF for the years ended June 30, 2013, 2012, and 2011 were \$29,618,865, \$27,331,691, and \$26,994,363, respectively, equal to the required contributions for each year.

#### NOTE 10: POSTEMPLOYMENT HEALTHCARE BENEFITS

*Plan Description* - The district contributes to the Health Care Trust Fund (HCTF), a costsharing multiple-employer post-employment healthcare plan administered by PERA. The HCTF provides a health care premium subsidy to PERA-participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the CRS, as amended, assigns the authority to establish the HCTF benefit provisions to the State Legislature. PERA issues a publicly available annual financial report that includes financial statements and required supplementary information for the HTCF. That report may be obtained by writing to PERA of Colorado, 1301 Pennsylvania Street, Denver, Colorado 80203 or by calling PERA at 303-832-9550 or 1-800-759-PERA (7372).

*Funding Policy* - The district was required to contribute at a rate of 1.02% of covered salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the district are established under Title 24, Article 51, Part 4 of the CRS, as amended. The apportionment of the contributions of the HCTF is established under Title 24, Article 51, Section 208 of the CRS, as amended. The districts' apportionment to the HCTF for the years ended June 30, 2013, 2012, and 2011 was \$1,875,353, \$1,833,435, and \$1,924,844, equal to the required amount for each year.

### NOTE 11: COMMITMENTS AND CONTINGENCIES

#### **Claims and Judgments**

The district participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the district may be required to reimburse the grantor government. At June 30, 2013, significant amounts of grant expenditures have not been audited by the grantor agency, but the district believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on the overall financial position of the district.

### Litigation

Several claims are presently pending against the district, but district management believes the final settlements of these matters will not have a materially adverse effect on the financial position of the district.

### **Construction Commitments**

At June 30, 2013, the district had construction commitments totaling \$524,448, primarily for building renovations to be funded with bond proceeds.

### NOTE 11: COMMITMENTS AND CONTINGENCIES (Continued)

#### **Tabor Amendment**

In November 1992, Colorado voters passed Article X, Section 20 (the "Amendment") to the State Constitution which limits state and local government tax powers and imposes spending limitations. The district is subject to the Amendment.

Fiscal year 1993 provides the basis for limits in future years to which may be applied allowable increases for inflation and student enrollment. In November, 1999, voters within the district authorized the district to collect, retain, and expend all excess revenues and other funds received from every source, without limitation, in the 1999-2000 budget year and each subsequent budget year thereafter without future voter approval, notwithstanding the limitations of the Amendment. The Amendment is subject to many interpretations, but the district believes it is in substantial compliance with the Amendment.

The Amendment requires all governments to establish a reserve for emergencies. At June 30, 2013, net position of \$8,355,947 was restricted to satisfy the reserve requirement.

### NOTE 12: CHANGE IN ACCOUNTING PRINCIPLE

For the year ended June 30, 2013, the district adopted the Governmental Accounting Standards Board Statement No. 65, *Items Previously Reported as Assets and Liabilities*. As a result, the district's net position at June 30, 2012, was restated to remove debt issuance costs capitalized in previous years, as follows.

	Governmental Activities	
Net Position, June 30, 2012, as Originally Stated Debt Issuance Costs, Net of Accumulated Amortization	\$ 150,240,212 (1,888,592)	
Net Position, June 30, 2012, as Restated	\$ 148,351,620

#### Boulder Valley School District RE-2 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2013

#### NOTE 1: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### Budgets

The district follows the following procedures in establishing the budgetary data reflected in the financial statements:

- In March, the superintendent submits to the board of education a preliminary proposed budget for the period commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted at regular board of education meetings to obtain taxpayer comments.
- In June, the budget is legally adopted by the board of education.
- In October, a revised budget is legally adopted by the board of education.

Colorado Budget Law requires that all funds have legally adopted budgets and appropriations. Budgets for all funds are adopted on a basis consistent with generally accepted accounting principles ("GAAP"). Total expenditures for each fund may not exceed the amount appropriated. Appropriations for a fund may be increased provided they are offset by unanticipated revenue. All appropriations lapse at the end of each fiscal year. Authorization to transfer budget amounts between programs and/or departments within any fund and the reallocation of budget line items within any program and/or department rests with the superintendent. Revisions and/or supplemental appropriations that alter the total expenditures of any fund must be approved by the board of education.

#### NONMAJOR GOVERNMENTAL FUNDS

#### Special Revenue Funds

*Governmental Designated-Purpose Grants Fund* - This fund is provided to account for monies received from various federal, state and local grant programs.

*Transportation Fund* - This fund accounts for a mill levy dedicated by election to the district's transportation needs.

#### **Capital Projects Funds**

*Building Fund* - This fund reports bond proceeds and other revenues to be used for major building repairs and renovations.

*Capital Reserve Fund* - This fund is authorized by Colorado School Law and is used to fund ongoing capital needs such as site acquisition, building additions, and equipment purchases.

### Boulder Valley School District RE-2 STATISTICAL SECTION TABLE OF CONTENTS

This section of the Boulder Valley School District RE-2's Comprehensive Annual Financial Report presents detailed data as a context for understanding the information in the financial statements, note disclosures, and required supplementary information.

Contents	Tables	Pages
<b>Financial Trends</b> These tables contain trend information to help the reader understand how the district's financial condition has changed over time.	1- 4	82 - 85
Revenue Capacity		
These tables contain information to help the reader assess the district's largest revenue source: property taxes.	5 - 8	86 - 89
Debt Capacity		
These tables present information to help the reader assess the affordability of the district's current levels of outstanding debt and the district's ability to issue additional debt in the future.	9 - 12	90 - 93
Demographic and Economic Information		
These schedules offer demographic and economic indicators to help the reader understand the environment within which the district's financial activities take place.	13 -14	94 - 95
Operating Information		
These tables contain service data to help the reader understand how the information in the financial report relates to the services the district provides and the activities it performs.	15-18	96 - 103

Superior Metropolitan District #3	1,696,000	100.00%		1,696,000
Town of Erie	15,490,000	1.96%		303,604
Town of Nederland	960,000	100.00%		960,000
Subtotal Overlapping Debt				255,551,837
School District Direct Debt (2)				356,354,757
Total Direct and Overlapping Debt			\$	611,906,594

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of outstanding debt of the overlapping governments that is borne by the taxpayers of the district. This process recognizes that, when considering the district's ability to issue and repay long-term debt, the entire debt burden borne by the taxpayers should be taken into account.

Notes:

- (1) Balances as of December 31, 2012
- (2) Balance as of June 30, 2013
- (3) The Percentage Applicable to the district is calculated by taking the percentage of the government's assessed value which is located within the boundaries of the district.

SINGLE AUDIT

(This page was left blank intentionally.)

Swanhorst & Company LLC

Certified Public Accountants

Board of Education Boulder Valley School District RE-2 Boulder, Colorado

#### INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and remaining fund information of the Boulder Valley School District RE-2 as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the basic financial statements of the Boulder Valley School District RE-2, and have issued our report thereon dated November 18, 2013.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Boulder Valley School District RE-2's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Boulder Valley School District RE-2's internal control. Accordingly, we do not express an opinion on the effectiveness of the Boulder Valley School District RE-2's internal control. over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Boulder Valley School District RE-2's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the Boulder Valley School District RE-2's internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Boulder Valley School District RE-2's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Boulder Valley School District RE-2's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Boulder Valley School District RE-2's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

November 18, 2013

& Swanhorst & Company LLC

Board of Education Boulder Valley School District RE-2 Boulder, Colorado

#### INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM, INTERNAL CONTROL OVER COMPLIANCE, AND THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY OMB CIRCULAR A-133

#### **Report on Compliance for Each Major Federal Program**

We have audited the Boulder Valley School District RE-2's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Boulder Valley School District RE-2's major federal programs for the year ended June 30, 2013. The Boulder Valley School District RE-2's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Boulder Valley School District RE-2's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Boulder Valley School District RE-2's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Boulder Valley School District RE-2's compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, the Boulder Valley School District RE-2 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

8400 E. Crescent Parkway • Suite 600 • Greenwood Village, CO 80111 • (720) 528-4306 Fax: (720) 528-4307

#### **Report on Internal Control Over Compliance**

Management of the Boulder Valley School District RE-2 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Boulder Valley School District RE-2's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Boulder Valley School District RE-2's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal noncompliance with a type of compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the Boulder Valley School District RE-2's internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and remaining fund information of the Boulder Valley School District RE-2 as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the basic financial statements of the Boulder Valley School District RE-2. We issued our report thereon dated November 18, 2013, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Boulder Valley School District RE-2's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling the information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.
